

**Fall 2020 Members' Meeting**  
*Online Via Zoom*

**AGENDA**

November 17 and 18, 2020

Contents	
Welcome	Dr. Ali Tura
Chalk Bluff Development Optimization Project	Ali Downard
Preliminary Geological Overview of the Chalk Bluff Area: Reservoir Characteristics and Production Evolution	Chad Taylor
Investigating Geologic Impacts and Controls on Production in the Niobrara: Faults and Natural Fractures	Ali Downard
Rate Transient Analysis (RTA) of Chalk Bluff Wells to Determine Stimulated Formation Permeability of Northern DJ Basin Niobrara and Codell Formations	Balnur Mindygaliyeva
Fracture Orientation from Cross-well Strain Analysis using Low-Frequency DAS Data	Rosie Zhu
Analytical Evaluation of Diagnostic Fracture Injection Test, the Chalk Bluff Project	Nurbol Bekbossinov
Inferring Near Well Conductivity from DAS-recorded Tube Waves Generated by Perforation Shots	Harrison Schumann
Summary: Chalk Bluff Development Optimization Project	
DAS-Based Production Logging: Flow Loop Experiments	Aleksei Titov
DTS Modeling of Near-Wellbore Temperature Transients	Kagan Kutun
Laboratory Assessment of Enhanced Oil Recovery in Low Permeability Synthetic and Reservoir Cores	Asm Kamruzzaman
Preliminary Investigation on the Marchenko Redatuming and Imaging Method for Internal Multiple Suppression	Liwei Cheng
4D Shear Wave Noise Attenuation on ultri-Component Seismic Data	Moacyr De Souza Bezerra
4D Joint PP-PS Inversion of Edvard Grieg Field, Norwegian North Sea	Marihelen Held
Feasibility Study of Fracture Interpretation Using Multicomponent Seismic Data: SEAM II Barrett Model	Youfang Liu
Railgun 3D Dataset Acquired with Compressive Sensing Technique: Initial Steps and Way Forward	Anna Titova
3D Multicomponent (9C) Datasets Acquired with Conventional and Simultaneous Source Techniques: Overview	Anna Titova
Inter-Stage DAS VSP: Modeling for Insights	Aleksei Titov
Near-Field Strain and Guided Waves in DAS-Based Microseismics	Bin Luo
Classification of Microseismic Events into a Target Reservoir and Guided Wave Normal Mode Analysis	Owen Huff
